MAY CONSIDER PAVING PETITION

City Council Will be in Special Ses-
sion Tonight to Hear the
Remonstrators.

PAVING MATTER IS DUE NOW

Thought That Order to Turn off the
Lights at 9 O'clock Will be
Reconsidered.

If the city council at its special meeting tonight, finishes hearing the remonstrators in the Dillon condemnation proceedings, it is very probable that the petition to pave Perkins street as far as Seventh will be taken up. The petition has been hanging fire for several weeks and each time the council has planned to take the petition up for consideration, other matters have interfered and caused the action to be postponed. At one time when the council was prepared, the city engineer was ill and was not able to present his figures on the cost of various methods of improvement.

If the petition to pave is considered it is very likely that residents of that part of Perkins street which it is planned will be paved, will remonstrate against the use of brick for the improvement. Shortly after the petition was filed with the council a number of residents of the street were circulating petitions to collect funds to make a fight on brick paving. It is understood that a good sum was collected and that it will be used to defray the expenses of employing an attorney.

Certain residents of the street declare that they have three good reasons against the use of brick for improving the street. In the first place they assert that brick makes the noise of traffic on the street so great that it becomes a menace to public peace and quietude. They say that travel on the street may be heard at all times at night and that it disturbs residents of the street, as may be proved, so they declare, by residents of Main street.

Secondly they assert that brick is much more costly than any other material which might be used for improving the street. They say that other material could be used which would make the weight which must be borne by the abutting property owners lighter. They say that asphalt or a macadam material would be much cheaper and would deaden the sound of passing vehicles.

The last reason which they have for making a fight on brick is that a brick street is hard to keep clean. They declare that any other material which is used for building streets is much easier to keep clean than is brick.

It is understood that the residents of the street who are not in favor of the improvement realize the futility of fighting it. They believe that it must go despite their wishes as there is no way in which it can be stopped according to the law under which the improvement is asked.

It is also expected that the council will take some action in regard to the order which the council made at its last meeting, when it was decided that the four lower globes on the new cluster lights should be turned off at nine o'clock in the evening. There has been no end of the howl that the business men have set up. It was generally understood by them that the lights would burn until 10 o'clock with the exception of Saturday when they would be left on longer. This schedule was to remain in ef-

fect during the summer months, so they thought. Much pressure has been brought to bear on the members of the council until some of them have come to see the matter in a different light.

One councilman, who is a business man, has said that he did not fully realize what he was doing when he voted for such an order and he believed that the council would change back to the other plan at its first opportunity. The business men assert that the lights should be left on until ten o'clock by all means as there are still many people on the downtown streets until that time.

The special meeting was advertised for tonight when remonstrators will be heard on the Dillon condemnation proceedings. It is proposed to extend and improve Arthur street to Third with sidewalks. Mrs. Dillon, who lives on the corner of Arthur and Third streets says that her property line extends out into the street and she demands a settlement for that part of her ground which she asserts will be used if the city builds sidewalks. Mrs. Dillon has sent notice that she will appear and remonstrate against the action. The city proposes to condemn her property and adjust the matter by paying her damages.

STRANGER TAKEN AROUND THE CITY

Had Rushville Listed as a Dead One
But Soon Changed His
Opinion.

SURPRISED AT IMPROVEMENTS

A traveling salesman from Indianapolis while here yesterday was made to see Rushville in a different light from which he supposed the city to be and confessed that he was surprised at what the city has to offer. He has traveled out of Indianapolis for eighteen years and had Rushville classed on his list as a dead one. He said that he supposed all the city had was the depot and offered no field for his line. According to his statement he had cut the city cold and thought it a back number like so many others he knew. While here yesterday he was shown around and was greatly surprised. The cluster lights, brick streets and a trip to the factory district convinced him. He was shown the new factory and it took no argument whatever to convince him that Rushville is a live wire. He expressed much surprise at the excellent condition of the rental property over the city.

HORSE KICKS MAN IN NECK

Clyde Archey of Milroy is Painfully
Hurt.

Clyde Archey of Milroy was painfully injured yesterday by being kicked in the neck by a horse. Mr. Archey had taken the horse from the barn to the watering trough and was patting the animal while it drank. Without a moment's notice the horse turned and kicked, the blow striking him in the neck. At the time of the injury was thought to be serious, but Mr. Archey was resting easy today and was greatly improved.

ANOTHER VICTIM.

Greensburg News: Miss Mary Jane Miller, known as "Sis" by nearly everybody, living on North Carver street, was the victim of a surprise last night, that worked successfully. As "Sis" is a Miss we confide in a whisper that she is 71 years of age.

BABE BEARS AN UNUSUAL MARK

Two-Months-Old Daughter of Mrs.
Arteniscia Thornton Has Two
Extra Fingers.

ONE ON EACH LITTLE FINGER

Distinctive Birthmark Has Passed
Through Several Generations—
Eight Children Bore Them.

There is a peculiar yet distinctive birthmark, if it may be called that, in a colored family in this county, which has been asserting itself in many generations. It is in the form of two extra fingers which one generation has passed on to another for years and years. The latest member of the family to inherit the peculiar mark is the two-months-old daughter of Mrs. Arteniscia Thornton, living on the Martin Fletcher farm six miles south of the city.

The child has two small, but well developed fingers in addition to the regular number of fingers which each individual has. There is one finger on each little finger of the child's hand. It protrudes just below the first joint and is fully developed with a nail and joints as any well regulated finger has.

The same unusual thing has occurred for several generations, coming from the maternal side of the house. The mother of the infant bore the same mark during her childhood. Mrs. Thornton had seven brothers and sisters, all of whom had the extra fingers during their childhood. Mrs. Thornton's mother and aunt, her mother's sister, bore the same birthmark when they were young. Tradition has it that that their mother before them had the same two freak fingers and that it had been handed down for many generations.

Mrs. Thornton says that the fingers do not remain on the hand longer than during childhood. When they begin to dry up, a cloth is tied around each finger and left there for several days. Finally, when the cloth is removed, the additional fingers will have dropped off. But the child bears the scar where the fingers were all through life. Mrs. Thornton has a scar on each little finger, which is sufficient testimony that her story has all the elements of a truthful one.

Mrs. Thornton is seeking a home for her infant. She says that she is unable to support it and that she would like to place it in some orphanage until she will be able to care for it. Her husband is in the South suffering with consumption and is unable to contribute to its support.

CARRIAGE IS OVERTURNED

Mrs. Peter Schetgen is Slightly In-
jured While Others Escape.

While driving west of the city yesterday afternoon, the carriage in which Mr. and Mrs. Peter Schetgen of North Harrison street, their son-in-law, Frank McCoy and two of his children were riding, overturned and the occupants were hurled into a ditch. The horse was thrown down and the vehicle was slightly damaged. All of the people in the carriage escaped unhurt with the exception of Mrs. Schetgen, who sustained painful injuries to one of her arms and shoulders.

Fair tonight and Tuesday cooler in extreme south portion tonight.

FIGURES DIFFER FROM REPORTS

Found That General Appraisement
Increase May Not Average
More Than 7 Per Cent.

REPORTS SHOW 13 PER CENT

In Light of Late Discovery, Rush
County Appraisements May be
Increased Yet.

According to Indianapolis newspapers, the actual figures on the increase in the appraised value of real estate and improvements over that of four years ago will not near compare with the increase which the various county officials reported at the meeting of the tax board last week. When the meeting was finished it was found, taking the report of the county officials as a basis for figuring, that the average increase for the State would be thirteen per cent. But, since the State board had begun that the increase is much smaller than was reported and may not average over seven per cent.

If the average does not go over seven per cent. it is very likely that the appraised value of real estate and improvements will be raised above that which it has already been fixed definitely by the Rush county board of review. It will be remembered that Rush county officials were called before the State board of tax commissioners last week to show why they did not make an average increase of ten per cent. as it was alleged had been ordered. After the several counties had reported and it was estimated from the reports that the average increase would be about thirteen per cent. local officials felt that no raise would be made in any part of the State as the per cent. was even greater than demanded. But since it has been found that the reports of the county officials were not correct, according to the official records of the various board of review, it is probable that the tax board will see fit to raise the value in many counties and that this will be among the number since the per cent of increase was not ten per cent. or even half of that.

There seems to be some misunderstanding as to whether or not a ten per cent increase was ever ordered. The county assessor and the township assessors here generally understood that a ten per cent increase should be made yet they agreed at the beginning of the time to take assessments that the general increase should not average over five per cent and in reality did not quite come up to that.

In the annual meeting of the State board last winter with the county and township assessors, and in their traveling about the State to confer with assessing officials, members of the board let it be understood, without a direct order from the board, that at least a ten per cent increase in lands and improvements should be made, and there has been a general effort on the part of the counties to meet this expectation.

At that time John W. McCordle and Fred L. Gemmer were board members. They have since retired. In the session just closed, members of the present board which includes Fred A. Sims and Dan M. Link in the place of McCordle and Gemmer, with C. C. Matson, a holdover member, said no instructions had been issued for such an increase, but admitted the counties might have got such an idea from what was said among the State taxing officials during the last year.

W. H. O'Brien, auditor of the State and ex-officio member of the board,

said the board had issued no such order of increase, but it has been expected in the auditor's office during the current assessing period, which began March 1, that such increase would be made. The county assessors declared such a report had been spread broadcast, through the State, and they attempted to make such a general raise where conditions warranted it.

J. WALTER WILSON IS COMING BACK

Well Known and Accomplished Mu-
sician Expects to Make Rushville
His Home Again.

WILL TAKE UP LYCEUM WORK

J. Walter Wilson has resigned as director of music at the Tabernacle Christian church and will move to Rushville the last of August, says the Columbus Republican. He formerly lived in Rushville and his mother died there two years ago. He will occupy the old Wilson homestead in the future.

This fall Mr. Wilson will conduct the singing at some evangelistic meetings, but later he expects to get into lyceum work and give a program of musical numbers, impersonations and vocal solos.

Mr. Wilson has been in charge of the music at the Tabernacle for over two years and would have finished his third year with the close of the present year. While here he has taken an active interest in everything musical and has not confined his work to the choir which he led. He has been a member of the Columbus Military Band, has done orchestra work and has directed numerous concerts where local singers took part.

ALLEGED FIRE BUG IS BOUND OVER

Charles Wolfe Goes to Jail in De-
fault of One Thousand Dollars
Bond.

DENIES ALL THE CHARGES

Charles Withrow, who was arrested in Hamilton, Ohio, charged with setting fire to a warehouse, has been identified as Charley Wolfe, the "suicide king." Wolfe was arrested after a series of mysterious fires and the police there believe him to be the fire bug. At the preliminary hearing in the Hamilton police court, Wolfe was bound over to the grand jury in the sum of one thousand dollars, and in default he was taken to jail. Wolfe took the stand in his own behalf, and denied the charge and also denied being in the vicinity of the fire. He admitted that he had served a term in the State prison at Jeffersonville and also that he had been probated from the Dayton Hospital about two years ago.

WAGONER DOES WELL.

Bill H., owned, trained and driven by David Wagoner of Manilla is continuing his sensational performances in Ohio. After scoring victories at Dayton and Springfield, the horse went into the 2:11 pace at Lima, O., Friday, with a field of eight fast steppers in 2:11 3/4. This is the third week that the horse has been raced this season and he has already harvested \$1,200 for his owner. A telegram containing the news of Billy H.'s performance at Lima was received here Friday evening.

TO SPEND MONEY FOR GOOD MUSIC

Secretary King Deems it Best Not to
Employ a Free Attraction for
Fair.

NO NEW ONES OUT THIS YEAR

Board Meeting Will be Held Satur-
day When Several Things Will
be Settled.

The first meeting of the Rush County Fair Association board will be held in the court house Saturday when the work of the coming exhibit will be outlined. There are a number of things which the secretary, William L. King, would like to put before the board and for that reason a good attendance is desired.

It has been practically decided that no free exhibition will be offered at the fair this year. The secretary has been corresponding with several companies but so far he has been unable to find anything new. About all of the free exhibitions which are to be had at county fairs have been seen here and Mr. King does not care to return any attractions.

Diving horses, vaudeville attractions, dirigible balloons and all manner of things have been used in the past. The secretary deems it best to save the money which has been spent in that channel and use it in bettering the fair along some other line. He has been conducting some correspondence with a man who owns a diving pony and who would come here. The matter will be presented to the board Saturday.

It has been thought best to get a good band as a leading attraction. The Indianapolis News' Newsboy's band has been employed to play on the last day of the fair. It is planned to hire the Rushville band for one day at least and perhaps more. Secretary King has been corresponding with the Maxwell-Brisco band at New Castle and that organization may be employed to play on Thursday. The bands will be employed in all probability at the meeting Saturday.

EDITORS SPEND SUNDAY IN QUEBEC

J. Feudner Writes of Trip Down the
St. Lawrence River and Through
Thousand Islands.

VISITS PLACES OF INTEREST

Word has been received from J. Feudner of the Daily Republican, who is making the trip into Canada with the National Editorial Association, stating that the party is having a great time. The crowd left Detroit in a special train and went as far as Kingston, where they took the boat down the St. Lawrence river through the Thousand Islands. At Prescott, Canada, it was necessary to take a lighter draft boat in order to go through the numerous rapids and reach Montreal. From Montreal the party went to Quebec. The trip back to Toronto was started this morning and before returning home a side trip will be taken to the Cobalt mining district. Mr. Feudner stated that the scenery was most beautiful and that he was enjoying the trip.

NO REASON FOR IT

When Rushville Citizens Show the Way.

There can be no such reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of serious kidney ills when relief is so near at hand and the most positive proof given that these ills can be cured. Read what a Rushville citizen says:

Mrs. W. A. Wylie, 824 North Arthur street, Rushville, Ind., says: "Doan's Kidney Pills have been used in our family and we have found them to be a splendid remedy for kidney complaint. A member of our family suffered from attacks of backache for several years, the trouble being caused by disordered kidneys. Doan's Kidney Pills were brought to our attention and thinking they might prove of benefit, we procured a supply at F. B. Johnson & Co's Drug Store. The use of two boxes entirely relieved the backache and strengthened the kidneys. I publicly recommended Doan's Kidney Pills at that time and I still take pleasure in saying a good word for them."

J. EADS HOW

"Millionaire Hobo," Who Wants

New York, July 24.—J. Eads How, the "millionaire hobo," will ask President Taft to allow the "lower ten" to hold their convention in the senate chamber at Washington from Sept. 1 to 4.

ANALYSIS OF THE VOTE AGAINST RECIPROCITY

Senators Who Held Opposition
to the Last.

Washington, July 24.—By a vote of 53 to 27 the Canadian reciprocity bill passed the senate without amendment. It becomes law upon the president's signature, the senate measure being the bill that passed the house. The senate had previously cleared the way for the overwhelming passage of the bill by defeating amendment after amendment by decisive vote.

An analysis of the vote showed that twenty-four Republicans voted against the bill and twenty-one in favor of it, while three Democrats voted against and thirty-two in favor.

Republicans against the reciprocity bill: Borah and Heyburn, Idaho; Bourne, Oregon; Bristow and Curtis, Kansas; Burnham, New Hampshire; Clapp and Nelson, Minnesota; Clark and Warren, Wyoming; Crawford and Gamble, South Dakota; Cummins and Kenyon, Iowa; Dixon, Montana; Gronna and McCumber, North Dakota; La Follette, Wisconsin; Lippitt, Rhode Island; Lorimer, Illinois; Oliver, Pennsylvania; Page, Vermont; Smith, Michigan, and Smoot, Utah—24.

Democrats against the bill: Bailey, Texas; Clarke, Arkansas, and Simmons, North Carolina—three.

The passage of the bill in unamended form is the most signal triumph of the Taft administration, and it consummates the work for which the extra session of congress was called.

BOTH SIDES CLAIM VICTORY.

Dallas, Tex., July 24.—With more than thirty counties unreported, the result of Saturday's vote on the prohibition amendment is still in doubt, both sides claiming the victory.

The expected rebel advance on the Haytien capital has been delayed. The rebels are at Mirabelais, eighteen miles north, apparently waiting for additional forces which are on their way from Cape Haytien.

THE PRESIDENT IS DELIGHTED

Expresses Thanks to All Concerned for Reciprocity.

HAS PRAISE FOR DEMOCRATS

They Did Not Play Politics, the President Says, "But They Followed the Dictates of a Higher Policy."—"We Republicans," He Says, "May Properly Enjoy Mutual Felicitations on a Work Well Done."

Beverly, Mass., July 24.—To the Democrats and to Secretary of State Knox for their aid in his struggle for Canadian reciprocity President Taft has extended his formal thanks. In his first statement upon reciprocity since its passage through the senate, which was given from the summer White House here last night, President Taft acknowledged the Democratic aid without which, he said, "reciprocity would have been impossible," and thanked Secretary Knox and his special assistants at the state department for their work "in the negotiations and the framing of the act and their lucid explanation and defense of its terms." This is the first word from President Taft since the passage of this reciprocity bill through the senate, and it is devoted almost entirely to this gracious acknowledgment of the aid given him by political opponents and by his assistants in the state department. For himself and his party colleagues in congress he has only to say:

"We Republicans who have earnestly sought reciprocity and some of whose votes were necessary to the passage of the bill may properly enjoy mutual felicitations on a work well done."

In his reference to Democratic aid he gave more than mere acknowledgment and paid a tribute to them for forbearing from amending the bill with general tariff revision legislation, which the president admitted they might have done and still claimed popular approval for their support of the reciprocity policy.

"The Democrats did not play politics, in the colloquial sense in which these words are used, but they followed the dictates of a higher policy."

"That I am very much pleased with the passage of the bill goes without saying," continues the president's statement. "I believe and hope it will be followed by similar action by the Dominion parliament. In my judgment the going into effect of the agreement will mark a new epoch in the relation between the United States and Canada and will tend to a marked increase in the trade between the two countries which will be in every way beneficial to both."

"In a sense the bill passed was a non-partisan measure, though the Republicans who voted for it probably did so on one economic theory, and the Democrats who voted for it, on another. I should be wanting straight-forward speaking, however, if I did not freely acknowledge the credit that belongs to the Democratic majority in the house and the Democratic minority in the senate for their consistent support of the measure, in an earnest and sincere desire to secure its passage. Without this reciprocity would have been impossible. It would not have been difficult for them to fasten upon the bill amendments affecting the tariff generally in such a way as to embarrass the executive, and to make it doubtful whether he could sign the bill, and yet to claim popular approval for their support of reciprocity in its defeat."

"To those who opposed the bill on the ground that it will do harm to the farmers, we can only say that we who have supported the passage of the bill look forward to the test of the actual operation of the reciprocity agreement to disprove their prophecies and to allay their fears. The satisfaction that actual experience in its working will give me confidently hope will secure its permanence. In a decade its benefits will contribute much to a greater United States and a greater Canada."

Washington, July 24.—The house committee on postal expenditures has called upon Postmaster General Frank Hitchcock to submit original copies of all records bearing on the controversy between the department and the Lewis Publishing company of University City, Mo.

E. G. Lewis, president of the company, declares that postoffice officials have plotted to injure his business. His counsel, Edwin C. Hadden, former third assistant postmaster general, said the department submitted to the Lewis company a form containing a long list of questions requiring that they be answered within twenty-four hours. Lewis said it took him, with forty assistants, and at an expense of \$10,000, seven weeks to prepare answers accurate enough to be sworn to.

RECORD CORN IS PREDICTED

Indiana's 1911 Crop Will Surpass All Previous Ones, Even That of Last Year.

DRY WEATHER MAY DO DAMAGE

Rain and Plenty of it is Needed to Make Yield a Banner One.

Indiana's 1911 corn crop will be the largest in years. With the issuing of the report of the department of agriculture showing the condition of Indiana corn as 91, one of the highest marks ever reached by the crops in this state in several years, all doubts but that the state will turn out a bumper corn crop were removed. Rush county corn, despite the fact that rain is needed, also is showing the growth that gives indication of giving Rush county also a record yield.

The record reached by the marks gathered on July 1 are far above those of last year. The condition of Indiana corn on June 1, 1910, was 84. This was considered a good crop, but the mark of this year with favorable weather conditions will make the other mark look comparatively low. The acreage of 1911, according to the report of the agricultural department, was 5,120,000, practically the same as the acreage of 1910.

Rain, and plenty of it, is needed to make this year's crop come up to the expectations. The corn at the time of the report was not badly in need of rain, but the coming of the dry and hot spell has in some places materially injured the crop. So dry has it become in Rush county, especially that in some places the tassels of the corn are said to have turned brown under the steady and fierce rays of the sun.

Wheat, mentioned in the recent report of the agricultural department, also showed up well July 1. Although the July report generally shows the grain still in the field, the early crop of 1911 gave the department a chance to make a report giving the exact condition of the wheat after harvesting. The crop of this year is rated as 85 against 78 of last year. Although this is an exceedingly high mark it did not come up to the expectations of some Indiana farmers. By comparative figures, according to several authorities, Rush county's yield for 1911 would exceed in quality the 1910 crop by at least 10 per cent.

Wheat has dropped from 80 cents to 78 cents in little more than a week and the exceedingly large supply gives indication of placing the market still lower.

P. T. Rathbunof, Secretary of Vehicle Dealers Association Shows, Evil at Hearing

TAKES RAP AT PARCEL POST

Declare That Action Would Give Concerns Right to Perfect Trust of Great Proportions.

[Special to the Daily Republican.]

Washington, D. C., July 24, 1911. A point was made at the hearing held by the sub-committee of the committee upon the Post Offices and Post Roads of the House of Representatives in Washington, D. C., July 12th and 13th, which has stirred up many officers of commercial clubs and similar organizations, working along the lines of town and city development.

P. T. Rathbunof, Springfield, Ohio, secretary of the National Federation of Implement and Vehicle Dealers Association of Ohio, Indiana and Kentucky told the sub-committee that much progress had been made in various towns and cities located near the centers of the country's population and markets in the up-building of valuable industries of their present advantages of being located near the customers, and the industries of the country would naturally congregate where power and labor were most available, in the northeastern section of the country. His contention was that a system of Parcel Post regulating rates by weight regardless of distance would act as a subsidy to the shipper upon long hauls; that the government would lose money at rates proposed upon all such long hauls, that this would be taking money from the pockets of the people and placing the same as a subsidy in the hands of such consignors.

It was also said by E. B. Meen of Chicago, secretary of the American League of Associations, organization of prominent wholesale firms and manufacturers, who have associated themselves together to assist retail merchant's association in opposition to Parcel Post, that the beneficiary of such a system would be the large mail order houses, to the damage of local retail merchants and the resources of the various communities. Mr. Meen also said that a trust of mail order houses, could thus be easily formed and would be one of the most oppressive of all the trusts which had ever been formed.

The point was also brought out that the goods used by these retail mail order houses were nearly always of non-union makes. The endeavor of such concerns was merely to get what would look well in a catalog, and sell readily regardless of its lasting utility that whatever would operate to the advantage of such retail mail order concerns would decrease wages and present high standards of American living.

FISH BLASTING CHARGED

Commissioner Finds Laws Are Violated With Seining Permits.

George W. Miles, State commissioner of fisheries and game, said yesterday that twelve indictments against alleged dynamiters of Indiana streams are pending in the southern part of the State. Three of those indicted are in jail and the others are under bond. Mr. Miles made a trip to Scottsburg yesterday at the invitation of Representative Wells, a member of the recent legislature. A conference of the farmers was called yesterday afternoon, and Mr. Miles said it was possible that he would appoint several deputies at the meeting.

A 12 year old girl is the champion
 speller of Oklahoma. She will re-
 cover from the habit when she at-
 tends college.

The snake gown is a recent Smart
 Set freak. The woman in it is said
 to look like an animated golf club
 sticking out of a caddy bag.

About now the estive clam bake,
 but if your wife has pronounced
 views on grease spots, you would
 better wear bathing trunks.

When anyone has such a luxuriant
 mane of hair as Gov. Cole Blease of
 South Carolina, it is safe to assume
 that he is "agin" the trusts.

The Indianapolis Star must feel
 very lowly and weak. The Indiana-
 polis Sun has turned its piercing
 rays that way. But they don't burn.

J. J. Hill has clapped a \$600,000-
 000 mortgage on the Great Northern
 road, but where is the rich uncle who
 will conveniently die just when the
 hard hearted creditor is foreclosing,
 after the manner of the plays?

President Taft congratulated King
 George of England and King Freder-
 ick of Denmark on their birthdays.
 This is better than sending them a
 side board, which they would have to
 keep in sight, for fear Mr. Taft
 would drop in and discover it was not
 in the dining room.

It has long been known that in the
 production of both the fancy and the
 plain or garden variety of poetry In-
 diana leads all other states of the
 union, opines the Muncie Press. The
 world has long been groping about
 for an examination but perhaps it
 has been found in the announcement
 made yesterday that Indiana also
 stands first in the production of on-
 ions. Onions are not only a whole-
 some food but they make a peculiar
 appeal to the emotions. The most
 phlegmatic Hoosier has been known
 to allow tears to trickle down his
 cheeks while bathed in the sentiment-
 al reflections induced by contempla-
 tion of this humble tuber. The heart
 of the onion belt is only a few miles
 north of Winona lake, where the
 Western Association of Writers was
 once wont to gather and where our
 literary celebrities still congregate.
 On an August evening travelers on the
 Winona interurban line between
 Warsaw and Goshen find the onion
 odor borne on the breezes as plainly
 as the scent of nectar on Olympus.
 The relation between onions and
 poetry need looking into, especially
 as the result is likely to be the still
 greater commercial popularization of
 an important Hoosier product.

Mary Shaw, a contributor in Mc-
 Clure's Magazine, seems to think a
 good deal of the common man, by
 which she probably means the fellow
 whose occupation prevents his al-
 ways being neat and tidy, or who
 does endeavor to present the appear-
 ance of the fashion plate, says the
 Dayton News. Working men some
 people call them, but Mary Shaw
 prefers the title common man—albeit
 they are getting more uncommon
 than the other kind.

Miss Shaw is, we believe, an ac-
 tress, or something of the kind, and
 she gives her personal experience "on
 the road," as it were. "I started out
 with the idea that the man with the
 rough face and the shabby clothes,"
 she says, "would be less courteous
 and respectful than the well dressed
 man. In knocking about the country
 I have had, from time to time, to ask
 strange men for information, for fa-
 vors, for help and sometimes for pro-
 tection. I have found that by all odds
 the most sympathetic and helpful
 and respectful men were the rough
 looking ones. If, in a dilemma, I had
 to choose between the two types, even
 if it were only a question of which
 would take the more trouble, I should
 be sure to go to the common man."

Any one who has seen the well-
 dressed young loafer on the corner
 ogling every passing woman can un-
 derstand how Miss Shaw happened to
 make that statement. But we are
 of the opinion that a line cannot be
 so distinctively drawn between the
 well-dressed man and the man of
 poor raiment. The truth is that
 there are men in all manner of dress
 and scoundrels in clothes of every
 cut and fabric. Every "rough" man
 is not considerate of woman, and ev-
 ery well-dressed man is not inconsider-
 erate. But it is a fact that the man
 who works with his hands, who earns
 his living by dint of his own force,
 who has himself suffered the hard-
 ships of the world because of a lack
 of the luxuries, is more likely to be
 sympathetic than the coddled chap
 who has not had to work.

One is often surprised to see for
 what slight reasons people will turn
 down an offer by the tried and true
 home merchants, to accept some
 more or less illusory bargain offered
 at a distance.

Often the apparent gain of a nickle
 or a dime is enough to lead people to
 send their money away from home.

It is one of the laws of life, that to
 get one must give. You can't al-
 ways be absorbing the good things of
 life from those around you, and never
 give anything in return.

All life is a trade. Sooner or later
 the man who thinks he can get some-
 thing for nothing always is found
 out, and he gets what he gives.

The man who is not a familiar
 face in the business houses of his
 home town is not a man who attracts
 many business friendships. He
 creates very little good will. People
 buy of him if they have to, if they
 find that he has bargains that they
 simply can't resist, but when things
 are about even, they never go out of
 their way to serve him.

Such a man gets a reputation for
 cold isolation, and if he wins it is by
 sheer hard work and friendships never
 help him.

A great many of the prizes in life
 go by favor. The fellow who feels
 interested in his townsmen, who
 takes every opportunity to throw
 a good business deal in the way of a
 neighbor, has created a host of
 friendly and willing debtors. These
 favors are not forgotten. They may
 seem bread cast upon the waters of
 a shoreless sea.

Then some day when he least ex-
 pects it, along comes some man to
 whom he has done a business favor,
 to whom it is a pleasure to make
 some return.

Here is explained the mysterious
 ease with which some fellows get
 along in life. They never seem to
 work as hard as others. But they
 have a genius for business friend-
 ship, they throw business favors to
 friends whenever possible, they buy
 everything possible of their townsmen.
 They create such a host of
 business allies, that by and by they
 find what a lot of people there are
 in life who enjoy and believe in re-
 turning favors and remembering mutual
 obligations.

APPLE CROP TO BE
 LARGEST IN YEARS

Prospects Are That Greatest Gather-
 ing of Homegrowns Will be
 Made This Fall.

ARE ON LOCAL MARKET NOW

That this year will be one of the
 greatest in the apple line for several
 years is a fact well known about the
 country at present. Apples are get-
 ting ripe everywhere and every tree
 in town or in the country is loaded al-
 most to the ground. The apples of
 the Early Harvest type are ripe and
 have been for more than a week. The
 Yellow Transparents are also ripen-
 ing fast.

Last year the crop of apples was
 short. What few there were, were
 not of the best type, being wormy and
 knotty. This year hardly an apple is
 blemished, unless it is a little spot
 from hanging too long in the sun.
 Farmers have been so busy recently
 that not much attention could be paid
 to the apple crop. Harvesting is now
 going at full force and all farmers
 were so busy helping one another that
 to stop work to pick apples seemingly
 means the loss of some money or
 time.

Already homegrown apples have
 shown up in the local market and as
 far as has been seen all are of ex-
 cellent type.

 Saturday at the Eastern hospital for
 the insane at Richmond, Ind. She had
 been taken to that institution a year
 ago. She leaves no near relatives,
 her husband having died several
 years ago. For a time before being
 taken to Richmond she had made
 her home with a sister-in-law, Mrs.

PLAN FOR LOCAL ORGANIZATION

Committee is Elected at Court House
 Meeting to Investigate Indiana
 Civic Union.

RUSHVILLE UNION CONSIDERED

State Superintendent Makes Inter-
 esting Address on Union and
 Points Out Needed Reforms.

Steps were taken at the meeting in
 the court house assembly room yester-
 day afternoon for the organiza-
 tion of a local branch of the Indiana
 State Civic Union which has for its
 purpose the bettering of moral con-
 ditions in Indiana, and as a final
 goal, the whole United States. A
 committee of five men was appointed,
 the ministers of the city to act as ex-
 officio members, which will take up
 the plan and investigate it with the
 intention of calling a meeting later
 when permanent organization will be
 perfected. The meeting was ad-
 dressed and the Union explained by
 the Rev. D. B. Johnson of Indianapo-
 lis, State superintendent. There
 were about fifty in attendance.

The Rev. Mr. Johnson declared the
 Union holds that the home, church
 and State, the three primary divi-
 sions of the nation, are created by
 Divine authority, but that they are
 all separate in themselves. He said
 citizens must be loyal to the State
 as well as to their church. He point-
 ed out that the organization of the
 Union is based on good citizenship,
 and that the new laws and their en-
 forcement are not needed so much as
 is good citizenship. He said that the
 voting evil today illustrated what
 was needed in the way of citizenship
 and pointed that it was the misuse of
 that and licentiousness which caused
 the downfall of Rome.

"We are looking for a common
 ground," he continued, "for all the
 moral forces in Indiana with the ten
 commandments as a platform. It is
 our program to take up the many of
 man's neglected obligations to the
 populace. I will not touch on the
 liquor question as it has been thor-
 oughly threshed out. We hold that
 too much stress has been put on that
 topic with relation to evils which are
 even greater."

Mr. Johnson asserted that the desec-
 ration of the Sabbath was one of
 the imminent evils of the age. He
 declared that a man who will not
 give God a hearing one day out of
 every week is not a safe citizen. He
 said the State upholds and allows
 the day of rest to be exploited for
 commercial purposes and at the
 same time fosters the church which
 builds up character that such prac-
 tices tear down. He referred to the
 Sunday base ball law and said that
 an effort would be made to cause its
 repeal at the next legislature.

He said that gambling, one of the
 neglected evils, is deep-seated and
 widespread, is vicious and not

harmless. Mr. Johnson declared that
 it destroys two fundamental and
 economic laws by making it possible
 for men to live without work and get
 something for nothing, both of which
 are impossibilities if the moral as well
 as civil laws are obeyed. He point-
 ed out that it is next to impossible
 to convict gamblers as the laws on the
 subject are lax and need amendment.

The speaker averred that profani-
 ty, and especially that of the public
 variety, is a common enemy to good
 citizenship. He said that there is a
 law against swearing in public and
 that it should be enforced.

He pointed out that immoral shows
 is another neglected evil. He said
 that attractions of that sort are
 stimulating lust and send more young
 men to the brothel than does the sal-
 loon. He declared that they need
 some regulation.

The social evil, another one which
 good citizens are duty bound to cor-
 rect, he said, is far greater than the
 liquor evil. He said that while one is
 an intemperate and perverted taste
 the other is a natural desire satisfied
 and one that is eating the American
 home away. He gave some startling
 facts in regard to the social evils,
 pointing out that there are half a
 million fallen women in the United
 States, many of whom are ending
 their worthless lives every day by
 committing suicide.

He said that it is the purpose of
 the Civic Union to bring about an in-
 dustrial equity. While not posing as
 an alarmist, Mr. Johnson declared
 that the difference between labor and
 capital should be settled or there was
 no way of predicting just where they
 will end.

Mr. Johnson gave three reasons
 why the Union should exist. He said
 all men would admit that reform was
 needed. Secondly, he said that or-
 ganization was the only way to bring
 it about. He asserted that eight or
 nine churches in this community, in
 which many thousand dollars are in-
 vested and the upkeep of which is
 very great, are generating a great
 moral power, but it is being wasted
 for want of organization to execute.
 He pointed out that is the place of
 the Union to work along practical
 lines to bring about legislation and
 law enforcement. He said it was
 planned to enlarge the Union to a
 nation-wide movement. He said
 speakers would be provided for the
 local Union so that the needs of the
 community would not be lost sight of.
 He declared that the local Union
 could find much of local good to be
 done. He said that the Union was
 interested in six bills at the last leg-
 islature, four of which passed and
 the remaining passed the lower
 house.

A resolution, endorsing the plans
 and methods of the Union, favoring
 its work and an oath that assistance
 would be furnished to organize a lo-
 cal Union, was passed unanimously.
 The Rev. J. W. Turner favored the
 appointment of a committee to in-
 vestigate the organization and urged
 that action not be taken too hastily.

The following men were nominated
 and elected for committeemen to act
 in conjunction with the ministers:
 Dr. C. H. Parsons, John Gartin, E.
 B. Thomas, Sam Hile and Frank Rey-
 nolds. The committee was given
 authority to invite anyone into its
 sessions to gain advice on any ques-
 tion. The committee will report at a

later meeting.

A collection was taken and an
 effort was made to get subscriptions
 to carry on the work of the Union.

FLY PAPER IS USEFUL

Improvised Method For Repairing a
 Puncture is Discovered.

The truth of the ancient and hon-
 orable adage, "necessity is the moth-
 er of invention" was well exemplified
 Wednesday by George Martin, a
 member of the firm of Martin Brothers,
 contractors, who are engaged in
 work at the Indiana Epileptic Village,
 says the New Castle Courier. When
 Mr. Martin started to New Castle in
 his Maxwell runabout in the morn-
 ing he found the innertube of the rear
 tire had been punctured and was flat.
 Having no rubber patching or cement
 at the village, he secured a piece of
 fly paper, pasted it over the puncture
 and inflated the tire and drove to
 town. The tanglefoot repair proved
 unusually successful and kept the
 wind in the tire until late in the even-
 ing.

 15,000,000 cans. There will conse-

 all departments, and all who come
 will be given work at good wages.

LOCAL NEWS

Ed Bell and family have moved to their new home, which was just completed in Tenth street.

The Rev. D. B. Johnson, State superintendent of the Indiana State Civic Union, preached at the St. Paul M. E. church yesterday morning.

The case of the State vs. Dagler in Squire Kratzer's court has been postponed until September and the defendant has been released on a \$500 bond.

Dan Lingo, who was arrested here Saturday on word from Shelbyville, stating that he had jumped a fine, succeeded in getting it paid and was released. The money was forwarded to Shelbyville.

INFANTILE PARALYSIS.

Shelbyville Democrat: What is believed to be a well developed case of infantile paralysis has been discovered in this county, the afflicted person being Daisy Cowan, the twelve-year-old daughter of Mr. and Mrs. Lafayette Cowan, who reside on the Shelby & Franklin pike, eight miles west of this city. The child has been suffering for several weeks and during the past two weeks her condition has been critical.

EDITORS AND SOUL-SAVING.

Marion Chronicle: Billy Sunday is being criticized by some newspapers because his receipts for the last evangelistic season were \$70,000, or \$2 a convert. However, if most of these editors undertook the same job by the piece they wouldn't make enough in a year to buy coal for the base-burner, so why knock?

ASKS TREE LOVERS TO GO

State Forester Plans For Visitors at Reservation.

Charles C. Deam, State forester, is preparing a State-wide campaign to interest Indiana tree lovers on visitors' day at the forest reserve near Henryville July 27. Placards announcing the visitors' day, probably will be posted along interurban lines of the State within the next few days. Reservation "hacks" are to meet all trains July 27 and guides will be furnished to show the visitors over the reserve which is nearly three miles long. Ash, catalpa, yellow poplar, black locust, hickory, oak, elm, chestnut, pecan, buckeye, coffeenut and sycamore trees have been planted by the forester and his assistants on the reserve according to scientific specifications.

SQUADRON GOES TONIGHT

Will Leave Wolcott's Corner Each Evening at 6:30 O'clock.

The first trip of the "Flying Squadron" will be made this evening to advertise the chautauqua. The towns of Glenwood, Raleigh, Mays and Fairmouth are in the itinerary which is arranged. The squadron will leave Wolcott's corner at 6:30 o'clock as it will each night that the advertising is done in machines. Tomorrow night is planned to visit Arlington and Carthage. The men's quartet will accompany the squadron and will furnish music at each stop.

AMUSEMENTS

The Vaudet will have a complete change of program tonight, showing the usual two reels of fine pictures. A special vaudeville act will be put on here the last three nights of this week.

The Palace will show as the first picture a Selig film "The Visiting Nurse." The picture shows a Nurses Association of a large city and how they work. While educational in a way it is no less interesting. "The Power and the Glory" is a Pathe drama. A new song will be on the program.

The Portola will show the usual two reels of pictures tonight. "Forgiven in Death" is an Essanay film. The picture is a western drama and is said to be a very fine picture. The other is a Selig comedy entitled "When There's a Will There's a Way." A new illustrated song will be sung.

Owing to the wonderful success of Hiawatha, the Indian Passion Play now being played by the Indian Players at Fairview Park, Indianapolis, the engagement has been extended to July 29th, after which date they go to the Epworth Assembly, at Ludington, Mich. and then to the Zoo, Cincinnati. The public has generously shown its appreciation of Mr. Moore's policy in keeping his performance up to the high standard he set for himself their first season, and those who have seen Hiawatha in other years say that in many respects this season's production is the best that has been given. The Indians are fine actors, and this being their Passion Play, they show the utmost sincerity in performing it. By admitting automobiles to the Park, the management has attracted a large number of patrons whom it otherwise would have missed.

GREENFIELD POSTAL BANK.

Greenfield Reporter: Postmaster George Duncan has received word from the postoffice department that the postal savings bank will be opened at the local office on August 19. The letter states that a postoffice inspector will be here in a few days to arrange for opening the depository, and one of the most experienced clerks will probably be appointed to look after this department of the office.

The buzzing of the door bell aroused us from our close communion with a mutual start. It was an unusual summons, one sharp pressure upon the button closely followed by two more of some seconds duration each. At the first alarm her hands involuntarily tightened in mine, and as the longer notes hummed their insistence I saw the color rush from her cheeks in a scurrying tide. Her form straightened and grew tense, and arising she glided with swift noiselessness across the room and touched the button that summoned her maid. As though she had been waiting in the doorway Janet slipped into the room. Her mistress addressed her swiftly.

"Janet, say that I am not at home. Under no circumstance permit him to enter. If he says that it is important, tell him that he may call me up in the morning." Beyond all question greatly agitated she returned to near where I sat, placing herself before the piano in the attitude of one about to play. Her face was unnaturally bloodless and a thin, hair-like line about the corners of her mouth seemed to be constricting her lips. Altogether the change in her appearance was not to my liking, and the quick stealth of her movements caused a most uncomfortable sensation to run through me; a mingled feeling of guilt and doggedness as though I had been surprised in a forbidden bower by his rightful lord. A totally different type from the soft and perfectly poised creature of the moment before was revealed to me in those fleeting seconds of quick action and swift sentences, and my breath came faster before the contrast. In the few steps that had been required to take her across the room and back, her face had become that of an older, harder woman. The sensitive beauty of her mouth had been lost in its compression; her cheeks were like polished marble; the soft luster of

"My Mistress Is Not at Home."

her eyes had turned into the glinting brilliancy of gems. Whether it was fear or anger or a blending of the two that had wrought this magic transformation I could not determine.

Almost breathlessly I watched the maid as she swung the door slightly and stood blocking the opening with her lithe form. From without rumbled the heavy tones of a man unsteady and thick from drink. "Good evening, Janet. I would like to see Mrs. Dace." The girl's answer was softly apologetic.

"My mistress is not at home." The reply which followed was preceded by a laugh.

"You know better, Janet. Tell her I wish to see her. Tell her, also, that it is a matter of importance."

"But I have said that she is not at home. But of course she will be here in the morning and you can then communicate with her. I have no doubt she will be pleased to hear from you."

In the instant of heavy hanging silence which followed I shot a glance at Mrs. Dace. She had leaned slightly forward, her hands clenched and her ears strained in the direction of the door. Then the notes of the man arose again, a sullen growl sounding through them.

"Did she order you tell me this nonsense or are you acting upon your own responsibility?" The voice of the yellow girl, theretofore respectful, took on a cold insolence.

"That is a matter for you to form your own opinion about. At least I am willing to accept any responsibility for what I may tell you. You may ask her concerning it when you see her again."

Plainly and distinctly Mackay swore, and I saw the door yield slightly to the pressure of a heavy hand from without. In the twinkling of an eye the maid's slender figure became that of an enraged panther, and her tones rang out with positive viciousness. "If you try to force your way in here against me I will have you

PIMPLES

And All Humiliating Skin Eruptions Are Banished by the New Sulphur Treatment.

Oh, the anguish of those ugly unsightly, humiliating pimples, blotches, and other skin troubles! Why tolerate them? Don't you know that the one sure eradicator of these blemishes is SULFOSOL (sulphur in solution)? Sulphur has for ages been recognized by the medical profession as the one great specific for blood impurities, but the trouble was that sulphur couldn't be assimilated in the blood.

SULFOSOL is just soluble sulphur—made possible through the recent discovery of a secret of Nature by a great chemist.

SULFOSOL (soluble sulphur) is Nature's gift to that large portion of humanity afflicted with Pimples, Eczema, and all forms of blood taints and skin diseases. Get SULFOSOL of your nearest druggist or write to Sulfolco Co., 72 Trinity Place, New York, for free book on Blood and Skin Diseases and the successful use of SULFOSOL in their treatment.

known dead and heels in the street by the employees. Release that door instantly."

He swore again, the pressure ceased and I heard his heavy step as it retreated down the hall. In a trice the maid had closed the door behind him and stood before us with a hot flush upon her face and her eyes averted. Mrs. Dace drew a long breath and her form and features softened. Once more she became the low-spoken, perfectly self-controlled woman of the minute before. "You did very well, Janet. I think that is all for the present. You may retire now." Noiselessly the girl slipped past us and disappeared behind the portiere.

"I turned to her mistress. 'What does this mean, Mattie?' I asked quietly, but with the sickening sensation that I had experienced once before, making my knees weak and my throat dry. She faced me with an almost imperceptible lifting of her eyebrows and shoulders.

"So far as I know it means nothing except that Mr. Mackay has been drinking and wished to see me for some reason of which I am as ignorant as you are."

"But at this hour of the night! It seems strange that even a man like him should have the presumption to call. I think under the circumstances I have a right to inquire. Does he sometimes do such things?"

"He never has before. He had no right to do so now. If it is a matter of important business he should have notified me of his coming at least a few moments in advance."

"But what business could he possibly wish to confer with you about at such a time of night that could not be transacted over the telephone?" I pursued unhappily. She waved her hand.

"I am sure that I am as ignorant and disturbed over the affair as you can possibly be. When I see him again I shall demand an explanation. Then I will be able to tell you."

"And those rings—they sounded almost like a signal—one short and two long ones."

"It is one of his peculiarities. I think he so announces himself everywhere." She came close beside me, dropping her hand upon my shoulder. "You told me once that you would never mistrust me again. You are doing so now. I cannot wholly control the actions of others, and there are reasons why I do not wish to quarrel with Mr. Mackay unless I am driven to it. Your jealousy may ruin our prospects and make us bad friends after all. I do not feel flattered by it."

I got upon my feet and slipped my arm about her. "You must forgive me once more, dearest. While I admit that my love is a jealous one, yet where my heart is my faith also resides. I trust you implicitly and will ask you nothing further. I was very much surprised, that is all."

She smiled upon me with a sweetness that was incomparable, and for an instant her palms held my cheeks. "You had better go now, Tom. It is late and I am just plain, physically tired. You may kiss me good-night if you wish—just once."

She turned her cheek to me and my lips paid reverential tribute to it. She accompanied me to the door, her

Corns Removed Sore Feet Cured, 10c

You've no idea how quickly and easily foot troubles can be ended until you try a 10-cent box of Plex. "The quick-healing 'olive.' Three applications will usually cure a bad case of aching, sweaty feet, and a few more will remove the corns and bunions. 'Sounds big,' but—just try it!"

Plex is a wonder-working, penetrating ointment. It destroys germs, cleans and heals quicker than anything else you ever heard of. A big box for 10 cents, and it has a hundred uses in every home.

One application cures itching piles. Quickest, surest remedy for eczema, dandruff, and other skin troubles. Splendid for catarrh. Quickly repairs stiff, sore muscles. Unequaled for burns, cuts, etc.

hands locked above my elbow, blew me a farewell from finger tips that touched her lips and disappeared behind the oaken panel. Sobered of spirit by the occurrence of a few minutes before, and despite myself somewhat depressed by thoughts which, notwithstanding the fact that I would not permit them to crowd themselves into my brain, nevertheless hovered upon the horizon of it, I started homeward on a brisk walk after having ordered the car, now hers, to one of the garages within the building. A vacant lot with a path cutting diagonally across it spread itself before me, and in accordance with my usual custom I took this short cut as a saver of steps. The remains of a natural grove were scattered throughout it, and upon its center the night shades lay heavily. As I passed an oak that leaned over the path I was conscious of a slight rustling movement at my back and ducked my head with an involuntary quickness that is the gift of a natural boxer. Then I whirled with my heel for a pivot.

Close behind me through the murk I saw a big form lurch across the way. I had just left behind me, thrown completely from its balance by a terrific blow that had been wasted in the empty air. In a flash I became a fighting machine; my fists knotted and muscles hardened as with my guard raised I edged towards him, on the alert for either attack or defense. At the same instant he regained his balance and came towards me. "You puppy," growled the heavy voice of Mackay.

Cold as ice, externally, but nevertheless with the fires of satisfaction burning fiercely within, I stepped backward and to one side, my left hand darting towards him in rapid feints. Knowing the man's reputation as I did, I was not in the least surprised at his attempted thuggery, and I now determined to give him the worst beating I was capable of without using more than my fists or endangering his life. His reputation was as an open book. When sober he used his brains for the destruction of his enemies, but when drunk the beast within him arose raging; and many was the man who, crossing him in his cups, had been felled unconscious by his great fist. Instinctively disliking him to the very core of my being, raging inwardly at the cowardliness of his attack, I stopped his approach by a straight left-hand blow that cracked like the report of a pistol and sent his head rocking. He was probably as powerful a man as myself, but much slower, much older and in much poorer condition physically and mentally. His bear-like rushes and swings I evaded without difficulty, sending his head backward with short, quick blows until his wine-filled mind whirled and he staggered as he tried to reach me. My time had come and deliberately I took full advantage of it. For the first time I used my right hand, sending it over his guard with the viciousness with which I would have struck at the head of a serpent. He spun in his tracks, threw up his hands and came down like a falling wall.

I stepped back, readjusted my coat and stood waiting. Perhaps thirty seconds later he stirred and climbed to his feet after several unsuccessful efforts and stood rocking in his tracks as he wiped the blood from his face and glared at me. "If I don't get you for this you will be the first one that

AMUSEMENTS

The splendid reputation of the John Robinson Shows is so firmly established none will doubt the genuineness of the promise made, and no one will be disappointed. This year the show has been enlarged so as to rank with any tented organization on the road. Thousands of dollars have been spent in improving every department.

It costs about \$3,500 a day to run such a big circus. There are 670 people with the show, besides \$3 advance men, contracting agents and bill posters with three advertising cars.

The Robinson Show carries 300 horses and 70 ponies, the lot valued at \$70,000. The eight big elephants represent a fortune in themselves.

With the monster show is its own surgeon, barbers, blacksmiths electricians and others.

No one who is not in touch with the great show can form any idea of the immensity of it. It is a small city in itself, constantly on the move, but with all kinds of mechanical provisions for its running.

One thousand pounds of meat are consumed daily in the circus dining halls, to say nothing of barrels of potatoes and similar supplies. All this is purchased daily. In the culinary department are employed fifteen cooks and thirty-six waiters, besides assistant cooks, meat cutters and pastry cooks.

A circus is a splendid object lesson in system—perfect system.

This is seen in the unloading of the cars and in every detail of the work. Every man is held responsible for his particular duty.

Mr. John G. Robinson who accompanies the circus, has 26 assistants on his staff. His "office on wheels" is complete, being provided with all conveniences, even long distance and local telephones, electric lights, etc.

The laundry bill of the Big show alone is \$250 per week.

The money carried out of town by a circus is the extra money brought by excursionists who have come to the show. The money received from town people is more than offset by the sums paid out here for supplies and other needed expenses. The big shows are coming Friday, Aug. 4.

A BIG PROBLEM FACES LEADERS

What Shall Be Done With Bryan In Nebraska?

THE OLD FIGHT IS RENEWED

Jim Dahlman Returns to the Charge With All Vigor and the Attitude of Tomorrow's Convention Toward "the Peerless Leader" Depends on Whether He Can Muster Sufficient Recruits to His Side.

Fremont, Neb., July 24.—Whether or not William J. Bryan escapes condemnation as a bolter at the Democratic state convention, which meets here tomorrow, depends upon two things—the inability of Mayor Jim Dahlman of Omaha, whose candidacy for governor he refused to support last year, to secure enough recruits to justify him in making a fight to secure the passage of resolutions similar to those adopted at the Douglas county convention, and the pressure from outside to make clear Bryan's pathway to being a delegate-at-large to the national convention. Dahlman says he is coming here with his resolutions prepared to make a fight for them if he deems it advisable. Bryan intends being a candidate for delegate-at-large at the April primaries. Dahlman says he will fight him to a finish.

The anti-Bryanites control the convention machinery, but there is sufficient data to determine which side has the majority of the delegates. Several county conventions followed the lead of Douglas county, while others gave Bryan flattering endorsement, one presenting him again as a presidential candidate. Most of them took no action whatever, aside from selecting delegates. The big problem that faces the leaders who are seeking harmony is to draft resolutions that will neither slight nor praise Bryan.

HE EXPECTS AID

Dolan Has Called His Friend Bradley to Arrange For Bail.

Lexington, Ky., July 24.—Thomas F. Dolan, lawyer and turfman, who killed Alderman Patrick Mooney, and at whose trial on a charge of murder the jury failed to agree, is to be released from jail, providing he can furnish a \$10,000 bail bond.

Judge Kerr ruled that it was a bailable case, but doubled the amount of the bond requested by the defendant's attorney. Dolan, unable to furnish the required amount from among his friends here, has cabled E. R. Bradley, millionaire sporting man, who is in England, to come to his further assistance, and he expects that Bradley will order some security company to furnish the bond.

TURNED THE TABLES

Accuser of Alleged Murderer Is Himself Accused of the Crime.

Owensboro, Ky., July 24.—Noel Boorman, charged with the murder of Bert McCarthy, railroad ticket agent at Lewisport, may not be tried for the slaying.

The warrant on which Boorman was arrested was sworn out by George Rarick, who had been working on the railroad at Lewisport. He claimed to have seen Boorman leaving the body of McCarthy after the agent had been struck down.

Later a warrant was issued against Rarick, charging him with the murder of McCarthy. He will be taken to Havesville and given an examination trial.

Six Sent to "Pen."
Lexington, Ky., July 24.—Judge Kerr sentenced to the penitentiary the following who were convicted at the July term of circuit court: J. K. Brown, forgery, two to ten years; John A. Keal, malicious shooting; Henry Alcorn, larceny; George Johnson, robbery; Louis Strauss and Granville Slaughter, housebreaking, one to five years each.

Harlan Whitaker Dead.
Lexington, Ky., July 24.—Harlan Whitaker, one of the first "mountain men" arrested in 1909 in connection with the assassination of William Goebel, Democratic aspirant for the governorship, was found dead in a cornfield in Butler county. Heart disease was the cause of death. Whitaker was released after a long imprisonment.

Great Blaze at Constantinople.
Constantinople, July 24.—Fire started Sunday afternoon in the Stamboul section near the ministry of war. A violent north wind drove the sparks to the south, and in a short while a very large area was afire. The general staff building and 2,000 houses were destroyed before the least control was gained.

Alleged Counterfeiter Taken.
Hartford, Ky., July 24.—Secret service agents arrested Jesse Schroeder, charged with being the source of the supply of counterfeit bills which have been in evidence for some time in Ohio and Kentucky towns.

A woman's suffrage paper is to be launched at Indianapolis.

EDNA GOODRICH
Coming Home to See What Her Ex-Husband Is Up To.

Paris, July 24.—Miss Edna Goodrich, whose original plans were to spend the summer in and about Paris, is preparing to sail for New York immediately. The sudden change in the plans of the actress is believed to be due to the California litigation of her former husband, Nat Goodwin, who has filed suit to regain possession of property signed over to her before their marriage.

WALKERTON AROUSED TO A VIOLENT PITCH

Officers Spirit Away Man Held On Serious Charge.

Laporte, Ind., July 24.—J. A. Henry, fifty-four years old, having been spirited away from Knox by the Starke county authorities, who feared mob violence, is held in the county jail here on charge of maltreating his two nieces, Verda and Zella Sibert of Walkerton, who are nineteen and seventeen years old, respectively. Henry and Verda Sibert disappeared from Walkerton several days ago, and, according to information from St. Joseph, Mich., were married in that city July 18. Previous to that time, it is alleged, Henry mistreated his younger niece and she attempted to commit suicide. The claspers were found here by the father of the girl, who took his daughter home and caused the arrest of his brother-in-law. Henry was taken to Knox, but was hurriedly returned to this city when threats of violence were made.

BURNS GAVE BOND

To Appear in Indianapolis When Wanted on Kidnapping Charge.

Indianapolis, July 24.—W. J. Burns returned here from Europe and appeared in Judge Markey's court to answer to four indictments on charges of kidnapping John J. McNamara, the labor leader, and taking him to Los Angeles, where he is held on charges of being implicated in dynamiting outrages. Burns waived arraignment on a plea of not guilty and gave bond of \$2,000 on each indictment. Judge Markey said he would get the case for trial in September or October.

Riverman Loses License.
Louisville, Ky., July 24.—Charging misconduct and misrepresentation, local steamboat inspectors revoked the license of Joseph Huber, owner of the Blanche Cutter, as operator of motor vessels. It was charged that Huber had engaged in the unlawful sale of liquor on the Ohio river.

Goes Far For Husband.
White Plains, N. Y., July 24.—Traveling 16,000 miles to wed the man of her choice, Miss Katherine Kipp has left White Plains for Rio Janeiro, Brazil, where her fiancé, Gerald Peabody Waring, is a geodetic surveyor in the employ of the Brazilian government.

COURT GRANTS AN INJUNCTION

Rules Against Honan In Voting Machine Case.

EXAMINATION WAS NOT PUBLIC

For This Reason the Action of the Indiana Voting Machine Commission in the South Bend Case Is Held to Be Ineffective, Court Sustaining Contentment That Rival Company Was Excluded From Meeting.

Indianapolis, July 24.—Notice from South Bend of a decision in a county court there granting the injunction asked by a voting machine company against the voting machine commission in the case recently tried in South Bend has been received by Attorney General Honan. On July 5 an examination of voting machines used in St. Joseph county was made by the commission. Under the Indiana statute this examination must be a public investigation before the report filed with the secretary of state by the commission is valid. This particular examination was made in the dining room of a hotel at South Bend, and, according to evidence brought out at the trial, representatives of a rival machine firm were excluded from the investigation. The rival firm brought suit for an injunction against the filing of the report by the commission. Attorney General Honan appeared for the commission. The court held that the examination was not a public one.

DIED AT CARD TABLE

Hoosier Jestingly Wagered Life and His Heart Paid the Stake.

Lawrenceburg, Ind., July 24.—Although he had lost a fortune at the card table, Harry C. Wheeler jokingly staked his life on his hand while playing poker with John W. Cerney, and lost.

"What've you got?" asked Cerney. Wheeler laid down his hand. He held two black jacks and a pair of black eights, while Cerney held two black aces and two black fours. Wheeler's head dropped on his chest, and he rolled from the chair and died. Heart disease, superinduced by a "poker sweat" is blamed.

UNGRATEFUL THIEF

Robbed Friend of His Boyhood Who Had Befriended Him.

Elwood, Ind., July 24.—Charles Halfin, a wealthy farmer, believes he can surpass the story of Jean Valjean and the silver candlesticks. A man he had not seen since they were boys in school together, called at his home in destitute circumstances, and was given a bed and supper. In the morning Halfin found his boyhood friend had left during the night, taking with him \$50 that he had stolen from Halfin's pockets, a quantity of jewelry and silver, and had then stolen a horse and buggy from the barn. No trace of the man has been found.

Unable to Get Out of Way.
Terre Haute, Ind., July 24.—Mrs. Anna Herrod, seventy-six years old, colored, was instantly killed by an Evansville & Terre Haute passenger train while on the way to a chapel to attend the funeral services of a friend. Mrs. Herrod was partly paralyzed and on account of this infirmity was unable to get out of the way when she saw the train approaching.

Walkout Follows Discharge.
Terre Haute, Ind., July 24.—A strike involving about 250 men was called at the Sandford mine, near here, following a meeting of representatives of the company and the miners' executive board. The strike grows out of the discharge a month ago of a miner on the ground that he did not keep his "place" properly timbered.

Work of Stylish Thieves.
Lafayette, Ind., July 24.—Two stylishly dressed men robbed the Stockton House, a fashionable boarding house here, getting away with \$500 in cash belonging to the proprietors. The men engaged a room, and discovered where the money was hidden. They picked open a desk and got the cash.

A Probably Fatal Fall.
Portland, Ind., July 24.—Isaac H. Robinson of this city perhaps was injured fatally when he fell thirty-five feet from the top of a cement silo near Berne, breaking both arms and suffering internal injuries. He is unconscious and in a dying condition.

Her Arrest Followed.
Wabash, Ind., July 24.—Mrs. Mary Olson pleaded guilty to assault and battery on her three-year-old stepdaughter. Mrs. Olson took the child to a well and, disrobing it, scrubbed it with ice cold water and a broom. Her arrest followed.

Carried the Safe Out.
Jamestown, Ind., July 24.—About \$100 in money and a quantity of stamps were taken when burglars entered the postoffice here, carried the safe out of the building and then blew it open with nitroglycerin.

EVASION DOESN'T STOP INEVITABLE

The Rev. Cyrus Yocum Likens Pilot's Indecision to That of People Today.

RULER IS BANISHED IN END

So it is, he Declares, All Must go to Judgment Bar—Union Meeting.

The second of the series of union evangelistic meetings was held in the United Presbyterian church last night. The pace set by the first of the series was not kept up last evening as no one responded to the invitation. The crowd was small due to the very inclement weather just about the time for the beginning of the service and it is for this reason, so the ministers believe, that the meeting was not more successful.

The Rev. Cyrus Yocum preached a very instructive sermon on Jesus before Pilot and his consequent crucifixion after the order of Pilot that he should be killed. The Rev. Mr. Yocum described in a manner that made the scene very realistic, the picture of Christ before Pilot. He pointed out that Christ was not ashamed but looked the ruler squarely in the eye, while Pilot, ordinarily a man of convictions and one who was accustomed to being obeyed, was nervous and undecided. Instead of Jesus on trial before Pilot, it was Pilot before Jesus, the speaker said.

"What then shall I do with this Jesus?" was the question which was formulated in Pilot's mind," said the Rev. Mr. Yocum. "It is the great question of the age. It is not the tariff question or the question as to what shall be done with the red light

districts in the great cities. Even the skeptic says that he could get along all right if he but knew what to do with this Jesus."

The Rev. Mr. Yocum pointed out that Jesus and his life are facts of history and he asked why they should not be accepted as such. He said that people believed that Napoleon lived and was defeated at Waterloo and then why not believe that Christ lived and performed His wonderful miracles.

"This is not only a great question for men in general," continued the pastor, "but it is the great personal question. It is for every individual to answer, what then shall I do with this Jesus. He is not only a great historical character, but he lives and moves in our life today and is a great energizing and forceful character."

The pastor declared that Pilot was forced to his decision. He said that Pilot feared that failure to crucify Jesus would bring on an investigation by Caesar which would result in his banishment, even though he was convinced that Jesus was the Master of men. He pointed out that it is so with persons who are considering the great question. They evade, put it off and procrastinate, he said, as Pilot did. Pilot was ordinarily unscrupulous, but he was convinced that Jesus was innocent and more than ordinary man.

The Rev. Mr. Yocum pointed out, that even though Pilot did not do what he believed because he feared an investigation by Caesar, the investigation came and resulted in his banishment, illustrating that he could not evade the inevitable. So it is with persons who are thinking on the great question, the Rev. Mr. Yocum declared, they can not evade the inevitable; they must all kneel before the judgment bar of God. He declared that when a thing is known to be right, it should be done at once because every moment that is lost is dangerous.

The Rev. A. W. Jamieson extended the invitation and made an earnest plea for lost souls. Mrs. M. R. McDaniel and B. F. Miller sang a beautiful duet.

FEW HUNTERS ARE IN THE FIELDS

Squirrels Crop is Light and They Are Difficult to Get Sight of Nowadays.

HUNTERS PRAYING FOR RAIN

Despite the fact that one man has an equal chance with the other, providing of course that he can shoot at all, in the chase for squirrels, from the reason that the Indiana game and fish laws don't permit the capture of squirrels with a net if such were possible, but few hunters are tramping the woods after this game.

Reports from hunters who have sought the fields and woods since the law opened for shooting the bush-tail, show that the squirrel crop in this section is unusually short this year. Many hunters have tramped all day without seeing a single squirrel, while others were more successful and bagged a few. No great killing of the little animal has been reported by any one hunter.

The hunters are praying for rain and say the best time to get squirrels is just after a shower in the summer time. It is then the animals move more than at any other time and may be seen best. The leaves and twigs are wet and do not crack when they break beneath the hunter's feet to announce his approach.

HORSE'S BIT BROKE.

Leonard Booth, whose horse ran away Friday evening and created some excitement, says that the bit broke which caused the horse to run so suddenly. He says that the horse's injured leg is improving and that it will not suffer any serious complications from their art.

When Real Fire Breaks Out, Telephone Must be Used.

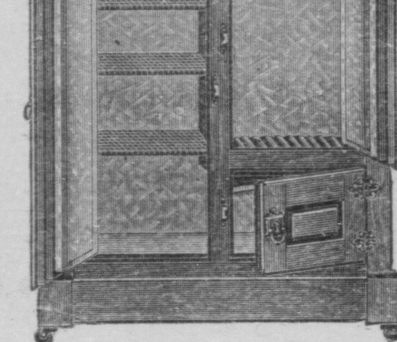

After the fire bell had rung repeatedly Saturday evening because a limb was across the wires some place and the current had been turned off to stop the annoyance until the damage could be repaired, a real fire broke out and the fire alarm system was found to be wanting. An effort was made to turn in an alarm without results. Finally the fire station was telephoned and the company made a run to the home of Mr. and Mrs. William Moore at the corner of the Pennsylvania railroad and Morgan street. The blaze broke out in the roof of the kitchen from a defective flue and caused a \$150 loss. The property belongs to the Bohannon family.
